## RONAN TAKES BREEDING TO ANOTHER LEVEL

After an amazing train journey resulting in a stone being thrown at the train and breaking a window. Ronan Boutot and his wife were delayed for several hours, eventually they arrived at their destination in Nottingham.

Ronan had informal talks with as many BLA-GS members as time allowed. It was soon apparent that breeding Guppies is very much a life long passion for Ronan.

His understanding of the English language was excellent allowing all the opportunity to make conversation. Ronan made time for every one and answered questions asked, offering some detailed explanations.

Although he had a very tiring journey this did not hold Ronan back from getting involved in depth discussions.

During the evening we all went out for a meal. It could be heard the constant debates on

breeding Guppies where ever Ronan was present.

The following morning Ronan's presentation was both detailed and informative. His manner and delivery was very professional and he answered questions with clear explanations.

Ronan brought several Round Tail Guppy pairs with him from his own breeding stocks. These were kindly donated to the BLA and auctioned off to the members.
