The club for all guppy hobbyists

UK FG Guppy News Nr 1 12th November, 2011

This is the first newsletter of Fancy Guppies UK. It is being sent to everyone, but after this one the Guppy News will only be sent to members of the club.

Membership is only £10 per year and you can join via the website fancyguppies.co.uk, which is the official club website. Our efficient membership secretary will ensure that membership will run 12 months from the date that you join. During your membership you will receive regular newsletters and you will have access to the revamped website and in particular the “**members only**” pages. These will include several benefits including new and advanced guppy articles, IKGH guppy standards, UK strains database, guppy healthcare information, access to a helpline and also a forum.

Fancy Guppies UK already has many members who are beginners in the hobby and we have those who are world class judges. Of course we also cater for everyone in between! We can

give help, advice and assistance in every aspect of keeping, breeding and showing high breed guppies.

We have an excellent team and committee to ensure that all services are fully and continuously provided and promises are always kept.

If you have any ideas or suggestions for the new club then make contact via the website.

This very first event for the new club will be next weekend. Come and see us at the Aquatics Live in London. This is a very large aquatics show to be held on Saturday 19th November and Sunday 20th November 2011 at London Olympia Exhibition Centre. We have a double stand in the exhibition and we have a team who will be manning the stall the whole time and will be very pleased to see you.

The UKFG club will have an event in February with a series of talks and lectures. These will be for judges training, which is also

very useful for guppy breeders, and we will have other presentation with regards to health and husbandry of Guppies. There will be a small charge for attendance which will be used to directly offset the cost of the event.

The first 2011 guppy league show will also take place at the event.

Further details will be given when they are available.

We would like to support guppy shows in other countries and encourage our members to make available pairs and trios. The European Championship requires entries to only four shows during the season to be a contender.

Details of all activities and events shall be provided as they become available. There will be a calendar full of activities for 2012.

Happy Guppies.
