

BRITISH LIVEBEARER ASSOCIATION

GUPPY SECTION *Newsletter*

VOLUME 2 ISSUE 14

November 12th, 2011

The previous newsletter was prior to the convention and European Championship Guppy show in Nottingham. The event was a great success and everyone had a great time. A massive 'thank you' is deserved by everyone who contributed to the success of the weekend. There are too many names to start listing, but you all know who you are !! Thank you.

With regards to the guppy group, nominations for Chairman and Vice Chairman were invited. The only two nominations received were declined by the two individuals. The BLA is therefore in a position that there is no leader of the guppy group.

A similar situation occurred with the main committee. However I can report that Chris Cheswright is acting leader and is indeed arranging things so that the BLA can continue. You will be contacted in the near future with the details and proposals. If you have any need to make contact regarding BLA matters then please contact Chris or

Don Kenwood, who is taking a lead role in the revamped BLA.

You can continue to contact Steve Elliott with anything relevant to Guppies.

The biggest news concerning guppy keepers is that the guppy group has evolved and is now separated from the British Livebearer Association. The guppy group is now a 'stand alone' and independent club for all guppy hobbyists. This development has been amicable and it is hoped that the two groups will work together in the future.

The guppy group will continue in the name of 'Fancy Guppies UK' (www.fancyguppies.co.uk) and will proceed with a new and improved Guppy club.

Your membership to the BLA will continue. There will still be a guppy event in February, the UK Guppy league will continue and of course we shall have an international guppy show in October.
